

CITY OF CHELSEA

NOTICE OF NIGHT WORK M52 SANITARY SEWER AND WATER SERVICE REPAIRS

Thursday Night, December 7, 2017 – from about (8:00 pm until 6:00 am)

And if needed:

Friday Night, December 8, 2017 – from about (8:00 pm until 6:00 am)

The City of Chelsea will be performing two **emergency repairs** of isolated sections of sanitary sewer and water services on S. Main Street (M52). **The repairs will take place in front of 627 & 705 S. Main Street.**

Due to heavy traffic on M52, the work has been scheduled for Thursday night from about 8:00 pm until 6:00 am.

During the night work **southbound M52 will be detoured** west on Lincoln Street, then south on Taylor Street, and then east on Old US 12 to M52. Northbound M52 will be able to travel thru the work zone and will not be detoured.

It is anticipated that the repair will take one night to complete but due to weather or unforeseen conditions the work could also take place Friday night.

The City would like to apologize in advance for any inconvenience that you may experience during the course of the emergency repair work. If you have any questions, please contact Derik Bollinger at 734/216-1252 for more information.

Sincerely,
City Administration
